

New COVID-19 measures for The Andante Inn of Sedona

We have always maintained a very high standard of cleanliness and sanitation. However, due to our current COVID situation we have taken even more steps to ensure the safety of both our guests and our staff.

Our helpful actions:

- Washing hands properly and on a regular basis. Avoid hand contact.
- Daily updated information from health authorities (CDC, WHO, etc.).
- Regular sanitation of public areas throughout the day
- Rooms are thoroughly cleaned with special attention to frequently contacted items such as: doorknobs, countertops, remotes, and switches.

We have also modified some of our services to better comply with our current COVID restrictions and help stop the spread of the virus. These modifications include:

- Lobby hours are now 7am to 11pm
- Our complimentary breakfast will be provided in a grab-n-go bag located in the lobby. Our coffee and juice machines are on.
- There will be no “stay-over” housekeeping service available unless requested.
- Gym is currently closed
- Our pool is open but limited to 10 people in the pool area. You may sign-in with the front desk for access to the pool. Your pool time may be limited to 2 hours.

We will continue with these protocols hoping, that in time, this situation will pass. Which it will if we all continue to do our part. Please practice social distancing and respect wearing a mask where appropriate and/or required.

We are all in this together!

Sincerely,

Ed Nelson, GM
Anthony Watkins, AGM
